

Ishaan Jain

Student | Computational Systems Architect

+919599883298 • ishaanjain842@gmail.com • Gurugram, India • github.com/Specter842

Experience

Haryana Cyber Police

Gurugram Police Cyber Security Summer Internship (GPCSSI)

Cyber Ambassador

- Promoted cyber security awareness by coordinating outreach between Gurugram Police and the public.
- Assisted in organising workshops and contributed to community outreach to promote cyber safety.

05/2024 - 08/2024

Gurugram, Haryana, India

buildspace

buildspace - Nights and Weekends Programme

- Developed an acoustic fire suppression project exploring sound-based fire control, collaborating with a global builder community to iterate on the concept.

05/2024 - 08/2024

Remote

Adobe Inc.

Project Intern

- Completed project-based training using Adobe Express and industry-standard creative workflows.
- Collaborated on team projects, strengthening communication and adaptability in professional environments.

08/2023 - 11/2023

Greater Noida, UP, India

Technical Skills

Languages: Python, Java, C++, JavaScript, SQL

Development: Android Development, Software Architecture, AI/ML Systems

Cybersecurity: Secure Systems, Network Security, Threat Analysis, Data Protection, LLM Security

Blockchain: Solidity, Ethereum, Smart Contracts, Web3.py

Tools: Git, GitHub, Linux, Android Studio, VS Code

Engineering: Robotics, Embedded Systems, Control Systems, Prototyping

Projects

Aegis | LLM Security Gateway | Python, FastAPI, PostgreSQL, React

- Built a bidirectional security gateway that scans LLM prompts and responses in real time, combining regex, YARA rules, and ML models in a multi-stage detection pipeline.
- Implemented canary-token leak detection and a YAML-driven policy engine (allow/sanitize/challenge/block) with a real-time WebSocket incident console.

UniHealth | Healthcare Interoperability Platform | Full Stack Development, Cyber-Security

- Built a cloud-based healthcare interoperability platform enabling secure real-time hospital data exchange using APIs.
- Implemented role-based access control and a scalable patient identity system for secure inter-hospital coordination.

Education

Thapar Institute of Engineering and Technology, Punjab

Bachelor's in Engineering - Mechatronics Engineering

Amity International School, Sector-43, Gurugram

CBSE Senior Secondary Certificate Examination (Computer Science)

Honors and Awards

- AIM ATL Marathon – Top 500 Teams (Issued by NITI Ayog, Govt. of India)
- Amity Space Design Contest – First Position (Issued by Children's Science Foundation)

Leadership and Extracurricular

Mechatronics and Robotics Society, TIET

Control and Automations Engineer

Thapar Venture Club

Operations Manager
